General Purpose Gauges
Series P-915 Low Cost Metric Utility Gauges

DESCRIPTION

U.S. Gauge P-915 utility gauges provide economical, reliable service in a wide variety of applications including pumps, compressors, and other equipment.

Series P-915 utility gauges come in English and metric ranges with accuracy of either ±3-2-3% or ±1.6% full scale.

Gauges are available in 40 mm, 50 mm, and 63 mm ABS cases with a choice of English or metric connections in center-back and lower mount configurations.
